

Square Ventilation Exhaust Fan

This square-framed fan is designed for ventilation and exhaust. It features a circular fan guard with a four-blade propeller secured within a square frame.

Product Overview

High-Efficiency Ventilation Solution

This square-framed electrical exhaust fan is engineered for reliable air circulation and ventilation. Featuring a robust four-blade propeller design, it is optimized for integration into ventilation equipment and household electrical appliances such as air conditioners. Its durable construction ensures consistent performance in demanding airflow applications.

Design & Construction

Frame Shape	Square
Blade Count	4
Mounting Type	Corner-secured square frame
Design Features	Circular fan guard, Four-blade propeller, Square frame

Applications

Suitable Applications

- Air conditioning systems
- General ventilation equipment
- Household electrical appliances
