

Square Ventilation Exhaust Fan

This exhaust fan features a square white front panel with vertical grille slats. It connects to a cylindrical duct for effective ventilation in bathrooms, kitchens, and similar spaces.

Product Overview

Efficient Air Ventilation Solution

This square-shaped exhaust fan is designed to provide reliable ventilation for enclosed spaces such as bathrooms, kitchens, and utility rooms. Featuring a clean, white front panel with vertical grille slats, it effectively draws in air to remove moisture and unwanted odors. The unit connects to a standard cylindrical duct, making it a practical choice for maintaining air quality and comfort in residential or commercial settings.

Design and Build

Form Factor	Square
Color	White
