

Stackable Tool Storage Box

This tool box is made from high-impact plastic and stainless steel for durability. It features a partitioned tool tray for small parts, a soft handle, and secure latches.

Product Overview

Professional Grade Tool Storage

This stackable tool storage box is engineered for durability and convenience, featuring a robust plastic construction reinforced with a stainless steel wrap. It includes a removable top organizer tray designed for efficient small parts management, making it ideal for professional electrical or general hand tool storage. The design prioritizes user comfort with an extra-soft, soft-grip carry handle for easy transport.
