

Stainless Steel Cable Tie Tensioning Tool

This tool is designed to tighten, cut, and strap roller self-locked stainless steel banding ties. It is suitable for use with cable ties that are 8-20mm in width and 0.25-1mm in thickness.

Product Overview

The TSM-4 tensioning tool provides a reliable and efficient method for securing cables and hoses in industrial applications.

Professional Tensioning Tool

This specialized stainless steel cable tie tensioner is engineered for the efficient installation of self-locking banding ties. It streamlines the workflow by combining the tensioning, pulling, and cutting processes into a single, reliable operation. Designed for high-strength requirements, it ensures consistent tension for secure fastening in demanding industrial, marine, and outdoor environments.

Technical Specifications

Engineered for durability, this tool is designed to apply the correct tension to stainless steel ties in high-stress environments.

Compatible Materials

Stainless Steel Straps • Self-locking Banding Ties

Model Number	TSM-4
Compatible Band Width	8mm - 20mm
Compatible Band Thickness	0.25mm - 1mm
Core Functions	Tensioning, Pulling, Cutting
