

Stainless Steel Coffee Urn

This stainless steel coffee urn is designed for brewing and dispensing large quantities of coffee. It features a durable stainless steel construction, a water level indicator, and a non-drip faucet for easy serving.

Product Overview

Professional Coffee Brewing Solution

This stainless steel coffee urn is engineered for high-volume brewing and dispensing, making it an essential tool for catering events, corporate offices, and large gatherings. Constructed with durable stainless steel, it ensures long-lasting performance in demanding environments. The unit features a rapid heating element for efficient brewing and a dedicated keep-warm function to maintain optimal serving temperatures throughout the day.
