

Stainless Steel Electric Kettle

This electric kettle is designed for efficient and safe boiling. Constructed with 304 grade stainless steel, it ensures durability and resistance to corrosion.

Product Overview

Professional Grade Electric Kettle

Designed for efficiency and safety in professional environments, this electric kettle is constructed from high-quality 304-grade stainless steel, ensuring excellent durability and corrosion resistance. Its streamlined design includes an ergonomic handle for controlled, easy pouring, making it an ideal solution for rapid water heating in tea and coffee service. Equipped with essential safety features like automatic shut-off and boil-dry protection, this unit provides reliable performance for daily use.

Material & Construction

Material Grade

304 Stainless Steel

Key Features

Corrosion Resistant, Streamlined Design, Ergonomic Handle

Safety & Performance

Safety Mechanisms

- Automatic shut-off
- Boil-dry protection

Primary Applications

Tea Preparation • Coffee Preparation • General Beverage Service
