Product Overview

High-Efficiency Stainless Steel Kettle

This stainless steel kettle features a sophisticated underfloor heating design, ensuring rapid heat response and minimal scale buildup. Engineered with the Strix control system, it offers reliable performance and a compact footprint for modern kitchen environments. The unit is versatile, supporting global power standards from 110V to 240V, making it an ideal solution for various international markets.

Technical Specifications

Power Output

3000 W
Max Power

Volume Capacity	1.7 L
Operating Voltage	110-240V
Heating System	Underfloor Heating, Strix Control System

Dimensions

Physical Measurements

Component	Measurement	Unit
Overall Height	170	mm
Base Diameter	165.2	mm
Top Diameter	90	mm
