Product Overview

High-Efficiency Kitchen Performance

This modern gas cooktop combines a durable stainless steel base with a sleek tempered glass surface, designed for both aesthetic appeal and robust kitchen performance. It features dual high-efficiency burners capable of delivering powerful heat output for versatile cooking needs. With advanced pulse ignition and precision flame control, this cooktop offers a reliable and user-friendly experience for any contemporary kitchen environment.

Technical Specifications

Model Number	JZY/T-Q2006(B)
Ignition System	Pulse ignition
Base Material	Cast iron

Performance Metrics

Thermal Efficiency

63 % NG Efficiency	63 % LPG Efficiency
------------------------------	-------------------------------

Rated Heat Input

Gas Type	Heat Input
Natural Gas (NG)	5.0 kW
Liquefied Petroleum Gas (LPG)	4.5 kW

Energy Efficiency Level

Level 1

Dimensions

Dimensions (L*W*H)

730 x 410 x 145 mm
