

Stainless Steel Hose Clamp

These high-quality stainless steel hose clamps are designed for secure and reliable fastening. They provide excellent corrosion resistance and durability for long-lasting performance in demanding environments.

Product Overview

Industrial Stainless Steel Hose Clamps

These stainless steel worm drive hose clamps are engineered for secure and reliable fastening across a wide range of industrial and machinery applications. Designed for durability and corrosion resistance, they ensure leak-proof connections in even the most demanding environments. With high-precision manufacturing, these clamps provide consistent performance for your engineering requirements.

Material Specifications

Available Material Grades	SS201, SS301, SS304, SS316
---------------------------	----------------------------

Technical Details

Available Band Widths

- 8mm
- 12.7mm

Manufacturing Precision	0.05 mm
-------------------------	---------

SS201 Band Thickness	0.6 mm
----------------------	--------

Dimensional Data

Mini Type Size Range

6 mm

Minimum Diameter

180 mm

Maximum Diameter
