

Stainless Steel Hose Clamps

These stainless steel hose clamps are designed for secure and reliable fastening in various applications. Constructed from high-quality stainless steel, the clamps offer excellent corrosion resistance and durability.

Product Overview

High-Performance Stainless Steel Hose Clamps

These stainless steel hose clamps are engineered for secure and reliable fastening across a wide range of industrial and mechanical applications. Constructed from high-quality stainless steel, they offer exceptional corrosion resistance and long-term durability in demanding environments. The design features a band with precision-engineered rectangular perforations and a robust locking mechanism, ensuring a tight, leak-proof seal for various hose diameters.

Technical Specifications

Corrosion Resistance

Excellent • Durable

Key Benefits

- Leak-proof sealing
- Precise diameter adjustment
- High corrosion resistance
- Durable construction

Material	High-quality Stainless Steel
Adjustment Type	Perforated band for precise adjustment
Locking Mechanism	Robust screw-drive locking
