

Stainless Steel Immersion Heater

This stainless steel industrial heater element is designed for heating liquids or gases. It features a dual-element construction with a looped heating section for efficient heat transfer.

Overview

Industrial Immersion Heater

This stainless steel immersion heater is designed for efficient and reliable heating of liquids and gases. Built with high-quality SUS304 stainless steel, it ensures excellent corrosion resistance and durability in demanding industrial environments. The robust design features a looped heating section to maximize heat transfer efficiency.

Technical Specifications

Voltage	220 V
Power Rating	1000 W
Sheath Material	SUS304
Resistance Wire	OCr25Al5

Logistics

Part Number	SHM26070
Quantity per Carton	16
