

Stainless Steel Kitchen Sieves with White Plastic Handles - Set of 4

This set contains four stainless steel sieves with fine mesh bowls and white plastic handles. They are designed for straining liquids or sifting dry ingredients in a kitchen setting.

Product Overview

Professional Kitchen Sieve Set

This high-quality set of four stainless steel sieves is designed for professional kitchen environments. Each piece features a fine mesh construction, making it ideal for straining liquids, sifting flour, or dusting ingredients with precision. The lightweight white plastic handles ensure a comfortable and secure grip during intensive daily use.
