

# Stainless Steel Kitchen Sink with Drainboard

This stainless steel kitchen sink features an integrated drainboard. It measures 764 x 435 x 180 mm and includes a single bowl with a ribbed drainboard for efficient water runoff.

## Product Overview

### Professional Grade Kitchen Sink

This durable stainless steel kitchen sink is designed for high-efficiency environments, featuring a single bowl configuration paired with a functional ribbed drainboard. Engineered for reliable performance, the drainboard design ensures rapid water runoff to keep workspace dry. Its compact dimensions make it an ideal choice for both professional culinary setups and modern commercial applications.
