

# Stainless Steel Milk Storage Tank

These stainless steel tanks store milk in volumes from 100L to 100,000L. They can be equipped with insulation and agitators ranging from 30rpm to 150rpm.

## Product Overview

### Professional Milk Storage Solutions

This high-quality stainless steel storage tank is designed specifically for the rigorous demands of the food and beverage industry, particularly milk processing. Available in a wide capacity range from 100 to 100,000 liters, these tanks can be customized with or without insulation to meet specific temperature control requirements. The integrated agitator system ensures consistent product quality, making it an essential component for dairies and food production facilities.

## Technical Specifications

### Performance Metrics

**150 rpm**

Max Agitator Speed

**100000 L**

Max Capacity

Capacity Range	100L - 100,000L
Agitator Speed	30rpm - 150rpm
Material	Stainless Steel
Insulation Availability	Yes
