

Stainless Steel Outdoor Patio Heater

This stainless steel patio heater provides warmth and extends the outdoor season. Constructed from durable stainless steel, it features a reflector at the top to direct heat downwards.

Product Overview

Professional Outdoor Heating Solution

This stainless steel patio heater is designed to extend your outdoor season by providing consistent and reliable warmth. Constructed from durable, weather-resistant stainless steel, the unit features an efficient reflector design that directs heat downward for maximum coverage. It combines a stylish aesthetic with functional heating, making it an ideal choice for patios, decks, and commercial outdoor seating areas.
