

Stainless Steel Polished Basin

This polished basin is constructed from stainless steel, offering durability and a reflective finish. Its smooth, rounded rim ensures safe handling and simplifies the cleaning process.

Product Overview

Professional Grade Stainless Steel Basin

This highly polished stainless steel basin is engineered for versatility and durability in demanding environments. Featuring a reflective, high-quality finish, it is perfectly suited for use in professional kitchens, workshops, or laboratory settings. The design incorporates a smooth, rounded rim to ensure safe handling and facilitate easy cleaning and maintenance.

Physical Specifications

Material	Stainless Steel
Diameter	30 cm
Height	15 cm

Application & Features

Key Design Features

Highly Polished Finish • Rounded Rim • Easy to Clean • Robust Construction

Suitable Environments	Workshops, Commercial Kitchens, Laboratories
