

Stainless Steel Range Hood

This stainless steel range hood is equipped with a quartz lamp, electronic switch and filter. It has an air exhaust volume of 700m³/h.

Product Overview

Professional Stainless Steel Range Hood

This durable stainless steel range hood is designed for efficient ventilation and reliability in commercial or high-end residential kitchen environments. Featuring a powerful 190W motor and a 700m³/h air exhaust capacity, it ensures optimal air quality by effectively removing smoke and grease. With its adjustable height design and robust construction, it offers versatile installation options and long-term performance.
