

Stainless Steel Rectangular Frying Skillet

This rectangular frying skillet is constructed from stainless steel and features raised edges. It offers a flat cooking surface and curved back edge for easy food handling.

Product Overview

Professional Grade Rectangular Frying Skillet

This durable stainless steel rectangular frying skillet is engineered for high-performance cooking environments, including commercial kitchens, catering services, and outdoor cooking setups. Featuring a flat, spacious cooking surface, it is ideal for grilling or frying a variety of food items such as meats, eggs, and vegetables. The thoughtful design includes integrated side handles for easy transport and a curved back edge to prevent spills, ensuring efficient food handling and preparation.
