

Stainless Steel Slip-On Flange

This stainless steel slip-on flange is available in sizes from 1/2 inch to 80 inches. It is made from stainless steel grades 304, 304L, 316, 316L, A350 LF2, 321, 347, and 347H.

Product Overview

Industrial Stainless Steel Slip-On Flange

This high-quality stainless steel slip-on flange is expertly designed for connecting pipes across demanding industrial environments. Featuring a raised face, it allows for secure welding to pipe ends to create a reliable, leak-proof seal. Its robust stainless steel construction ensures superior corrosion resistance and long-term durability in sectors such as chemical processing, oil and gas, and heavy plumbing.

Technical Specifications

Material Composition	Stainless Steel
Key Design Features	Raised Face, Weldable, Leak-proof

Applications

Common Industries

- Chemical Processing
- Oil and Gas
- Industrial Plumbing

Performance

Key Performance Attributes

100 %

Corrosion Resistance
