

Stainless Steel Solar Garden Stake Light

This stainless steel solar garden stake light adds ambiance and illumination to outdoor spaces. The light features durable stainless steel construction and a stake design for easy installation in lawns, gardens, or flower beds.

Product Overview

Solar Garden Illumination

This stainless steel solar garden stake light provides an efficient and eco-friendly lighting solution for outdoor landscapes. Designed with a durable, weather-resistant construction, it features an intelligent photocell that automatically activates at dusk and turns off at dawn. The high-efficiency monocrystalline solar cell ensures reliable charging, powering two super-bright white LEDs for up to 10 hours of illumination.

Technical Specifications

Light Source	2x Super Bright White LEDs
Solar Cell Type	Monocrystalline
Battery Capacity	600 mAh
Battery Type	Rechargeable Ni-MH
