

Stainless Steel Solar Powered Garden Pathway Light

This stainless steel outdoor solar garden pathway light is designed to illuminate gardens, pathways, or lawns with a soft, ambient glow. It features a durable stainless steel construction for weather resistance and longevity.

Product Overview

Solar-Powered Illumination

This stainless steel outdoor solar garden pathway light is designed to illuminate your garden, pathway, or lawn with a soft, ambient glow. Featuring durable stainless steel construction, it offers excellent weather resistance and longevity for outdoor environments. The integrated solar panel charges automatically during the day and activates the light at dusk, ensuring hassle-free operation with no wiring required.

Technical Specifications

Construction Material	Stainless Steel
Power Source	Integrated Solar Panel
Illumination Pattern	360-degree

Features

Installation

No wiring required • Easy installation

Automation	Solar charging, Automatic dusk-to-dawn sensor
Durability	Weather resistant, Outdoor rated
