Product Overview

Professional Wet Polishing Solution

This high-performance sanding belt is engineered specifically for stainless steel wet polishing applications. Featuring a specialized cloth treatment, it effectively prevents slipping during intensive polishing cycles to ensure operator safety and consistent results. The waterproof design ensures durability and high-quality smoothness performance even under demanding wet conditions.

Technical Details

Available Grit Sizes

- AZ-40
- AZ-180

Model Number

PZ933

Application

Wet Polishing, Stainless Steel Finishing

Performance Features

Key Features

Waterproof • Anti-slip Treatment • Durable Construction
