

Stainless Steel Wire Rope

This stainless steel wire rope is suitable for applications requiring strength and resistance to corrosion. The multi-strand construction enhances its flexibility and load-bearing capacity.

Product Overview

Versatile Stainless Steel Wire Solutions

This premium stainless steel wire rope offers exceptional corrosion resistance and reliability across diverse industrial sectors. With a comprehensive diameter range from 0.3mm to 32mm and multiple construction options, it is engineered to meet rigorous international standards for strength and performance. Whether for marine environments, construction, or rigging applications, this cable provides the durability required for demanding professional projects.

Technical Specifications

Tensile Strength

- 1570
- 1670
- 1770

Construction

1x7, 1x19, 7x7, 7x19, 6x7+FC/IWS, 6x19+FC/IWRC/IWSC, 19x7, 6x37+FC/IWRC, 6x36WS+FC/IWRC

Diameter Range

0.3mm - 32mm

Material and Finish

Surface Finish

Bright • Annealed • Electro-polished

Available Materials

AISI 304, AISI 316, AISI 304L, AISI 316L, Non-magnetic

Compliance and Logistics

Packing Methods

- Plywood reels
- Plastic spools

Standards Compliance

AISI, ASTM, DIN, EN12385-4, BS, GB, JIS

HS Code

7312100000

Applications

Key Industries

Rigging, Construction, Aircraft, Metallurgy, Hardware
