

Stainless Steel Wire Rope, 304/316 Grade, 1x7/1x19 Strand

This stainless steel wire rope is available in 304 and 316 grades. It comes in 1x7 and 1x19 strand configurations to suit different flexibility and strength requirements.

Product Overview

High-Performance Stainless Steel Wire Rope

This premium stainless steel wire rope is engineered for exceptional corrosion resistance and long-lasting durability in demanding industrial environments. Available in versatile strand configurations including 1x7 and 1x19, it is designed to meet rigorous international standards for applications ranging from construction to rigging. With a wide diameter range and multiple surface treatment options, this product provides reliable performance for diverse mechanical and structural requirements.

Technical Specifications

Available Tensile Strengths

- 1570
- 1670
- 1770

Compliance Standards

AISI • ASTM • DIN • EN12385-4 • BS • GB • JIS

Material Grade

AISI 304, AISI 304L, AISI 316, AISI 316L, Non-magnetic

Diameter Range

0.3mm to 32mm

Manufacturing Details

Available Constructions

- 1x7
- 1x19
- 7x7
- 7x19
- 6x7+FC/IWS
- 6x19+FC/IWRC/IWSC
- 19x7
- 6x37+FC/IWRC
- 6x36WS+FC/IWRC

Surface Treatments

Bright, Annealed, Electro polished

Logistics

Standard Packaging

- Plywood reels
- Plastic spools

HS Code

7312100000
