Product Overview

Creative Visual Solutions

These innovative LED displays are specifically engineered for integration into staircases and flooring, providing a dynamic way to present videos, animations, and high-impact visual content. Designed for high-traffic public environments like shopping malls, hotels, and nightclubs, they feature robust SMD 3-in-1 LED technology that ensures excellent clarity and wide viewing angles. The modular architecture supports easy installation and maintenance, offering a flexible and eye-catching solution for immersive architectural design.

Technical Specifications

Key Performance Metrics

100000 Hrs
Lifespan

50 kgs/sqm
Weight

600 Hz
Refresh Rate

2000 nits
Brightness

Available Pixel Pitches

P6, P6.67, P7.62, P10, P16, P18, P20, P31

Environment and Durability

Environmental Ratings

- Ingress Protection: IP43
- Operating Temperature: -20°C to 50°C
- Operating Humidity: 10% to 95%
- Mean Time Between Failures (MTBF): 50,000 Hours

Control and Connectivity

System Compatibility

- Input Modes: DVI, VGA, S-Video, RGBHV
- Synchronization: Synchronous control
- Brightness Adjustment: 256 Levels via software
- OS Support: WINXP, WIN2000, WIN98
