

# Stamped Metal Mounting Frame

This stamped metal frame is designed for mounting various audio-video product accessories. Constructed from SPCC, it features multiple cutouts and mounting holes for secure attachment.

## ADDITIONAL IMAGES

## Product Overview

### Precision Stamped Mounting Frames

These stamped metal mounting frames are engineered for durability and structural integrity in audio-video and electronic applications. Constructed from high-quality SPCC material, they offer reliable support and precise alignment for various components. With versatile surface treatment options and a wide range of dimensions, these frames are designed to meet diverse industrial mounting requirements while maintaining RoHS 2.0 compliance.

## Technical Specifications

### Compliance

RoHS 2.0 Compliant

### Material

SPCC

### Surface Treatment Options

Plating (Cr3+), ED Coating Black, Powder Coating Black

## Dimensions

### Outer Diameter Range

**1.5 in**

Min Diameter

**15 in**

Max Diameter

### Thickness Range

**0.6 mm**

Min Thickness

**1.6 mm**

Max Thickness
