

Standard Definition Set-Top Box

This set-top box is a low-cost, standard definition receiver. It features multi-CAS support for enhanced functionality.

Overview

Professional Digital TV Reception

This standard definition set-top box is engineered to deliver reliable digital TV reception for professional deployments. It features a highly secure architecture with support for major Conditional Access Systems, ensuring compatibility with diverse broadcast environments. The intuitive user interface and over-the-air update capability make it an efficient solution for large-scale subscriber networks.
