

# Standing Fan with Integrated Exhaust

This standing fan provides both cooling and air circulation. It features an integrated exhaust function.

## Product Overview

### Dual-Function Air Management

This standing electrical fan is engineered for versatile air management, combining traditional cooling capabilities with an integrated exhaust function. Its robust design features a silver-colored grill and housing paired with a stable black base, ensuring durability in various environments. The unit includes a top-mounted light fixture, making it a practical addition to spaces requiring both ventilation and illumination.

## Technical Specifications

Model Identifier	LR-12
Control Panel	Multi-setting, Indicator Lights

## Design & Build

Color Finish  
Silver • Black

### Integrated Features

- Cooling Fan
- Exhaust Function
- Light Fixture
