

Standing Water Cooler Dispenser for Gallon Bottles

This standing water cooler dispenser is designed for use with gallon bottles. It features both hot and cold water dispensing options.

Product Overview

Professional Water Dispensing Solution

The YLRS-B1 standing water dispenser offers an elegant and innovative design suitable for office or home environments. Engineered for efficiency, it features a dual-tap system providing both hot and cold water on demand. The unit utilizes a stainless steel inner vessel for hygiene and longevity, supported by high-performance cooling and heating systems.

Performance Metrics

Dispensing Capacity

5 L/h

Hot Water Capacity

2 L/h

Cold Water Capacity

Temperature Range

| Function | Temperature Range |
|------------|-------------------|
| Hot Water | 85-95°C |
| Cold Water | 6-10°C |

Technical Specifications

Input Power

- Heating: 550W
- Cooling: 100W

Power Requirements: 220-240V / 110-127V, 50Hz / 60Hz

Refrigerant: R134a

Physical Dimensions

Box Size: 335 x 330 x 980 mm

Gross Weight: 15 kg

Logistics & Supply

Container Loading (40' HQ): 490

Features

Key Highlights

Stainless Steel Inner Vessel • Compressor Cooling • Free Standing Design • Cabinet/Fridge Option
