Product Overview

Professional Steam Performance

This high-performance steam generator ironing system is engineered for efficiency, offering a robust 2600W power output and a 5-bar pump system for rapid wrinkle removal. Designed for both household and commercial use, it features a generous 1.5L removable water tank to minimize refilling during long sessions. With its ergonomic handle and advanced safety features, it combines ease-of-use with professional-grade garment care results.

Technical Specifications

Power Rating	2600 W
Steam Pressure	5 bar
Steam Boost	240 g/min
Water Tank Capacity	1.5 L
Startup Time	2 min

Features

Usability Features

- Removable water tank
- Cord storage system
- Adjustable fabric settings

Safety & Maintenance

Auto Shut-off, Auto-Decal, Carry Lock
