Steam Iron with Base Station

This steam iron is designed for removing wrinkles from clothing and fabrics. It features a water reservoir, temperature control, and a non-stick soleplate, along with a base station for convenient storage and refilling.

Product Overview

Professional Steam Iron with Base Station

The TY2306 steam iron provides a high-performance solution for fabric care and wrinkle removal in professional or residential settings. Featuring an integrated base station, this unit allows for efficient water management and stable storage between sessions. The design includes precision temperature controls and a non-stick soleplate to ensure smooth, damage-free gliding across various garment types.
