

Steam Station Iron with Stainless Steel Soleplate

This steam station iron is designed for efficient ironing. It features a separate steam generator base and a lightweight iron with a polished stainless steel soleplate.

Product Overview

Professional-Grade Steam Ironing System

This steam station iron is a high-performance ironing system designed for efficiency and ease of use in a professional or domestic environment. It features a pressurized boiler mechanism with a stainless steel soleplate for smooth, consistent gliding across various fabric types. The unit includes a 0.8L water capacity and integrated safety features such as a pressure-regulated safety valve cap and dual-power controls for both the boiler and iron.
