

Steam Vacuum Cleaner for Wet and Dry Dust

This steam vacuum cleaner can be used as both a steam cleaner and a vacuum cleaner. It picks up both wet and dry dust and cleans without chemicals, killing allergens and trapping potential triggers for asthma and allergic reactions.

Overview

Professional Cleaning Performance

This wet and dry steam vacuum cleaner is engineered to deliver deep, hygienic cleaning across various surfaces. By combining a powerful 800W vacuum suction system with a 1500W high-temperature steam generator, it effectively eliminates dirt, dust, and grime in one pass. Its compact, maneuverable design makes it an ideal solution for offices and professional spaces requiring versatile maintenance tools.
