

Steel Axe with Fiberglass Handle

This steel axe is equipped with a plastic-coated fiberglass handle for enhanced grip and long-lasting durability. Its ergonomic design provides comfortable handling and reduces fatigue during prolonged use.

Product Overview

Professional Grade Steel Axe

This steel axe is engineered for durability and performance in demanding outdoor and professional environments. It features a high-strength steel head designed for optimal sharpness and cutting efficiency. The ergonomic fiberglass handle is plastic-coated to provide a secure grip, reducing user fatigue during extended periods of operation.

Technical Specifications

Head Material	Steel
Handle Material	Fiberglass with plastic coating

Key Features

Recommended Use

- Outdoor cutting tasks
- Professional forestry work
- General wood processing

Handle Design	Ergonomic, Plastic-coated, High-durability
