

Steel Cutting Wheel for Angle Grinders

This cutting wheel is designed for cutting steel. It features a durable abrasive composition for efficient and precise cutting and is suitable for use with angle grinders and other compatible power tools.

Product Overview

Professional Grade Cutting Wheels

These high-performance cutting wheels are engineered for versatility and durability in demanding industrial environments. Constructed with a blend of premium abrasives, synthetic resin, and reinforced fabric, they deliver efficient and precise cuts across a wide range of materials, including metal, stainless steel, alloy steel, stone, and non-ferrous metals. Designed for compatibility with both portable and stationary machinery, these wheels provide a reliable solution for professional cutting applications.

Material & Compatibility

Composition

- Premium Abrasives
- Synthetic Resin
- Reinforced Fabric

Compatible Materials

Metal, Stainless Steel, Alloy Steel, Stone, Non-Ferrous Metal

Technical Specifications

Operating Speed

80 m/s

Max Peripheral Speed

Available Dimensions

| Size (inch) | Size (mm) | Max RPM |
|-------------|------------------|---------|
| 4" | 100 x 2.0 x 16 | 15300 |
| 4-1/2" | 115 x 2.0 x 22 | 13300 |
| 5" | 125 x 2.0 x 22 | 12200 |
| 6" | 150 x 2.0 x 22 | 10200 |
| 7" | 180 x 2.0 x 22 | 8500 |
| 9" | 230 x 2.0 x 22 | 6600 |
| 14" | 350 x 3.0 x 25.4 | 5500 |
| 16" | 400 x 3.0 x 25.4 | 4700 |
