

# Steel Firewood Rack with Powder Coating

This heavy-duty log holder is constructed from robust steel, providing exceptional support and stability for storing logs. Its durable design ensures long-lasting performance, even under heavy loads.

## Product Overview

### Heavy Duty Steel Log Holder

This heavy-duty log holder is constructed from robust steel, providing exceptional support and stability for storing logs. Its durable design ensures long-lasting performance, even under heavy loads, while the black powder-coated finish offers superior rust and corrosion resistance. The unique rack design keeps logs organized and easily accessible, making it a reliable solution for both indoor and outdoor firewood storage.

## Key Features

### Product Highlights

- Lightweight construction
- Easy to assemble
- Sturdy saw bench design
- Packs flat for efficient storage and transport
- Powder-coated finish for corrosion resistance

## Performance Metrics

### Capacity and Compatibility

**150 kg**

Weight Capacity

**200 mm**

Max Log Diameter

**25 mm**

Min Log Diameter

## Dimensions and Weight

### Physical Specifications

Specification	Value
Open Dimensions (L x W x H)	1190 x 380 x 1010 mm
Packing Dimensions	1195 x 400 x 60 mm
Gross Weight	11.5 kg
Net Weight	10.5 kg

## Logistics

Container Quantity (20')	1100 pcs
Packaging Type	Color box
