

# Steel Frame Hand Trolley

This hand trolley is designed for moving heavy loads. It features a sturdy steel frame, durable wheels, and a comfortable handle for easy maneuverability.

## Overview

### Professional Material Handling Solution

This robust hand trolley is engineered for efficient material handling in demanding environments such as warehouses and factories. Built with a sturdy steel frame, it ensures long-lasting durability and reliability under heavy daily use. Designed with user comfort and maneuverability in mind, this trolley is an essential tool for streamlining your logistics operations.

## Performance & Capacity

### Key Performance Metrics

**200 kg**
