

Steel Measuring Tape with Side Lock

This steel measuring tape features a small side lock for comfortable handling. It offers convenient and accurate measurements for various applications.

Overview

Professional Steel Measuring Tape

This steel measuring tape is engineered for high-performance professional use, offering exceptional resistance against impacts and mechanical stress. With its robust casing and clear, precision-printed scale, it ensures reliable measurements for demanding environments such as construction and engineering. The integrated side lock mechanism provides added convenience during operation, ensuring a longer service life in harsh job-site conditions.

Specifications

Tape Length	5 m
Tape Width	19 mm
Model Identifier	TS-5019

Features

Recommended Use

- Construction
- Engineering
- General Measurement Tasks

Key Features

Impact Resistant, Side Lock Mechanism, High Quality Steel, Long Life Cycle
