

Steel Mesh Trailer Ramp, 4 ft

This durable steel mesh trailer ramp is designed for loading equipment onto trailers. It measures 122cm (4 feet) in length and includes safety straps for secure attachment.

Product Overview

Heavy-Duty Steel Mesh Trailer Ramp

This 4-foot steel mesh trailer ramp is engineered for durability and ease of use when loading wheeled equipment. Featuring a robust steel construction with a high-traction mesh surface, it ensures safe transitions for a variety of machinery. The design includes convenient portability features like an integrated handle and protective rubber tabs, making it an essential tool for professional and residential hauling.
