Product Overview

Professional Bathroom Heating Solution

This multi-column bathroom towel warmer radiator is engineered for both efficiency and durability, constructed from high-quality mild steel (SPCC/Q195). Designed to provide a comfortable bathroom climate, it supports both central hydronic and electric heating systems. The unit meets the rigorous EN442 standards, ensuring reliable performance and consistent heat output for professional installations.

Technical Specifications

Certifications

EN442 • ISO 9000 • ISO 14001 • SA8000

Materials & Finish

Mild Steel, SPCC, Q195, Chrome Plated, Powder Coated
