

Steel Platform Trolley with Casters

This platform trolley is designed for transporting heavy loads with ease. It features a sturdy steel frame, a non-slip platform surface, durable casters, and an ergonomic handle.

Product Overview

Versatile Material Handling Solution

This Steel Platform Trolley is engineered for robust performance in demanding environments like warehouses, workshops, and distribution centers. It features a sturdy steel frame paired with a non-slip platform surface, ensuring the secure and stable transport of heavy goods. Designed for efficiency, the trolley includes durable, smooth-rolling casters that provide excellent maneuverability across various floor types, while the ergonomic handle facilitates effortless operation.

Construction & Design

Material	Steel
Surface Features	Non-slip surface, Reinforced frame

Mobility

Maneuverability	High • Indoor Use • Warehouse Ready
Caster Performance	Smooth-rolling durable casters

Usage

Recommended Environments

- Warehouses
- Workshops
- Distribution Centers
