

Steel Seamless Pipes

These steel pipes are manufactured without any welding or seams. They offer enhanced durability and are ideal for high-pressure and high-temperature applications.

Product Overview

Industrial Grade Seamless Piping

These high-quality steel seamless pipes are engineered for superior strength and durability in demanding industrial environments. Manufactured to meet rigorous international standards, they ensure precise dimensions and reliable performance for high-pressure and high-temperature applications. Their seamless construction provides exceptional resistance to corrosion, making them an ideal choice for oil and gas pipelines, chemical processing, and critical fluid transportation systems.

Technical Standards

Common Pipe Schedules

SCH40 • SCH80

Compliance Standards

API 5L, API 5CT, ASME B36.10M, ASTM A53, ASTM A106, DIN 2248, DIN 1629, DIN 2440, BS 1387

Material Composition

Available Materials

- Mild Steel
- ASTM A106
- ASTM A192
- ASTM A53
- DIN ST37.0
- Steel 20
- Q345

Dimensions

Size Availability

0.5 inch

Minimum Nominal Size

8 inch

Maximum Nominal Size
