

Steel Shovel with Wooden Handle

This steel shovel is designed for digging and moving materials. It features a durable steel blade and a sturdy wooden handle for a comfortable grip.

Product Overview

Professional Grade Steel Shovel

This robust and versatile shovel is engineered for heavy-duty digging and material handling tasks in demanding environments. Featuring a durable steel blade, it provides excellent resistance to bending and wear, ensuring longevity for construction and agricultural work. The ergonomic wooden handle is designed for optimal balance, reducing user fatigue during extended periods of operation.

Technical Specifications

Blade Material	Steel
