

Steel Tubeless Truck Wheel Rim

This tubeless truck wheel rim is constructed from thick steel. It features a silver or gray coating for corrosion resistance and is designed for use in heavy-duty commercial vehicles.

Product Overview

Heavy-Duty Steel Performance

This tubeless truck wheel rim is engineered for demanding commercial and heavy-duty applications. Constructed from high-grade, thick steel, it provides the structural integrity required for long-haul and intensive transport tasks. The design features a precision-curved profile to ensure a reliable, airtight fit for tubeless tires, while the silver-gray corrosion-resistant finish provides lasting protection against environmental elements.

Technical Specifications

Tire Compatibility

Tubeless

Material Composition

Thick Steel

Coating Finish

Corrosion-resistant silver/gray

Primary Application

Trucks, Commercial Vehicles, Heavy-Duty
