Product Overview

Industrial Steel Wire Rope Wedge Joint

This high-strength steel wire rope wedge joint is engineered for secure and reliable connections in heavy-duty lifting, hoisting, and crane applications. Designed to ensure proper alignment and load distribution, it enhances safety and operational efficiency across demanding environments such as agricultural construction and industrial hoisting. Each unit is built for durability and long service life, meeting rigorous international quality and safety management standards.

Quality Certifications

ISO 9001:2008, OHSAS 18001:2007, ISO 14001:2004
