

Steel Wire Scratch Brush with Handle

This steel wire brush is designed for cleaning and surface preparation. It features a dense array of steel bristles for effective removal of rust, paint, and debris.

Product Overview

Professional Grade Cleaning Tool

This steel wire scratch brush is designed for professional surface preparation and heavy-duty cleaning tasks. Featuring a dense array of durable steel bristles, it efficiently removes stubborn rust, old paint, and industrial debris from various surfaces. The ergonomic red plastic handle ensures a comfortable grip, making it an ideal choice for metalworking, automotive repairs, and demanding household maintenance projects.
