Product Overview

Upgrade Your Steering Experience

This premium steering wheel assembly is specifically engineered to upgrade Toyota Land Cruiser 200 series models from the 2007-2015 generation to the 2016 style. It features a sophisticated combination of high-quality materials including wood grain accents and durable leather for a comfortable, luxurious grip. Designed as a direct replacement, it integrates seamlessly with your vehicle's existing control systems for a professional-grade interior enhancement.
