

Step-Down Voltage Converter

This step-down transformer converts AC voltage from 220V-240V to 110V-120V. It has an input current of 0.3A and includes an input fuse for safety.

Product Overview

Professional Step-Down Voltage Solution

This step-down transformer provides a reliable way to convert AC voltage from 230V to 110V. It is engineered for safe operation in environments requiring different voltage standards, making it an essential tool for cross-regional equipment usage. With integrated safety features and robust performance specs, it ensures your 110V devices function efficiently.

Technical Specifications

Input Voltage	230V AC
Output Voltage	110V - 120V AC
Power Capacity	400 VA
Input Current	0.3 A
Power Factor	0.6

Safety & Features

Input Fuse Rating	T0.3A
Key Attributes	Step-Down, Overcurrent Protection, AC Conversion
