

Step-Through City Bicycle with Rear Rack and Lights

This city bicycle features a high-carbon steel frame and a step-through design. It includes a rear rack with a water-resistant bag, front electric power lights, and rear battery-powered tail lights.

Overview

Designed for Daily Commuting

This step-through city bicycle is engineered specifically for long-distance urban riding, offering a balance of durability and cost-effectiveness. Its design prioritizes an upright, comfortable riding position, making it an ideal choice for daily commuters. Equipped with essential utility features like a rear rack and integrated lighting, it provides a reliable, practical solution for everyday travel.
