

Step-Through Electric Bicycle with Basket and Passenger Seat

This electric bicycle features a step-through frame, making it easy to mount and dismount. It includes a front basket, padded seat, and rear passenger seat with backrest, suitable for urban commuting and recreational use.

Product Overview

Urban Commuter Utility

This step-through electric bicycle is engineered for versatile urban mobility and daily commuting. Featuring a user-friendly step-through frame design, it ensures easy mounting and dismounting for riders of all abilities. The inclusion of a front basket and a dedicated rear passenger seat with a backrest makes it a practical solution for both personal errands and transporting passengers safely.
